

What is claimed is:

1. A process for collecting seeds from a lump consisting of a plurality of seeds having fluffy fibers, comprising the steps of: disentangling said lump; and burning the fluffy fibers after the disentanglement of said lump.
2. The process for collecting seeds according to claim 1, wherein the seed having fluffy fibers is a seed of any one among a cattail, reed, cogon and redtop.
3. The process for collecting seeds according to claim 1 or 2, wherein the disentanglement of said lump is carried out to such an extent that the step of burning the fluffy fibers is finished in a short period of time.
